Experience

WordPress & PHP Developer / Team Lead

2018 - Feb 2026

Salah Software, Sylhet, Bangladesh

- Built and maintained WordPress themes, plugins, and Moodle LMS solutions for multiple product brands, including EnvyTheme, HiBootstrap, GutoTheme, HiboTheme, and Themes.Gallery.
- Delivered ThemeForest and WordPress.org-ready products used on 25,000+ websites.
- Led day-to-day WordPress and PHP development workflows, including code review, implementation standards, debugging, and release quality checks.
- Designed maintainable product architecture for reusable components, scalable customization, and long-term support.
- Improved product quality through performance-minded development, clean code practices, and consistent release support.

Trainer - Web Design & Development

2023 - Feb 2026

IT Training 4U (Subsidiary of Salah Software)

- Delivered structured training in web design and development through project-based learning, guided practice, and real-world assignments.
- Mentored students with portfolio reviews, code feedback, and practical learning paths focused on job readiness.

Selected Projects

eCademy

- Developed an LMS WordPress theme for online course, coaching, and education platforms.
- Focused on scalable UI implementation, performance optimization, and maintainable long-term product support.

StartNext

- Developed a startup-focused WordPress theme for SaaS, AI, IT, and technology businesses.
- Implemented flexible page structures, modern UI patterns, and performance-conscious front-end development.

EnvyTheme Platform

- Contributed to platform development, including licensing flows, product architecture, and supporting systems for multiple themes and plugins.
- Helped maintain a scalable commercial ecosystem serving thousands of customers across multiple products.

eDash

- Developed a Moodle LMS theme with emphasis on performance, accessibility, and clean education-focused UI.
